AWJAH AUTOMATIC DOORS – Entrance Solution

Offer a wide range of bespoke service and maintenance packages to suit your business and premises needs, from our pay as you go service to our fully comprehensive package all offering great value for money

We can provide a maintenance package completely tailored to your needs, from a small independent business to large national retailer.

Maintenance to your automatic doors products is vital, ensuring that the products are safe and comply with the latest safety standard. Also guaranteeing that you achieve the maximum life span from the equipment with no unnecessary breakdowns. We can achieve this with our annual or quarterly monthly pre planned maintenance, where we carry out stringent health and safety checks on all aspects of the door operator and activation and safety devices. Any recommendations will be reported back to you to help you comply with regulation. We will also replace any defective consumable parts. All of this is available with our comprehensive package. This allows us to take on the maintenance contract where there is a wide variety of automatic operators throughout the Riyadh.

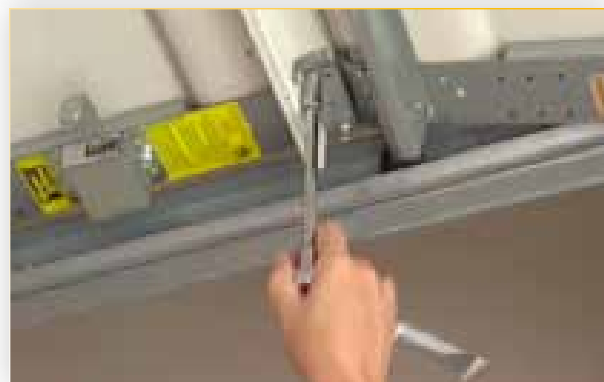

Our vast industry knowledge and experience allows us to maintain any automatic operators on the market.

The Benefits of Long-Term Maintenance Contract

- Reduced Risk of Breakdowns
- Increase the span of doors and continued level of safety and performance
- Save money and make budgeting easier
- Able to call and support at any time
- Faster Service
- Measure of Performance

DOOR MAINTENANCE CONTRACT

We offer a pre-planned maintenance service that covers you for a visit form AWJAH quarterly a year. Once every three months, we check overall all automatic doors, manual doors (Industrial and Commercial) and make sure that everything is running properly with your door systems. We can make minor adjustments and quickly replace consumable all type of parts.

WHO ARE? MAINTENANCE CONTRACT FOR?

We recommend that anybody who has Automatic doors should have a maintenance contract in place. Awjah Automatic Doors – Entrance Solution has seen this type of service become over more popular. Automatic doors can be a large investment for any business and if they are not maintained properly then you will not get the full value for the product not the full life span of the product.

WHO ARE? MAINTENANCE CONTRACT FOR?

We recommend that anybody who has Automatic doors should have a maintenance contract in place. Awjah Automatic Doors – Entrance solution has seen this type of service become over more popular. Automatic doors can be a large investment for any business and if they are not maintained properly then you will not get the full value for the product not the full lifespan of the product.

HOW DOES A MAINTENANCE CONTRACT WORK?

The maintenance contract is priced on a per visit and per asset basis. We consider how many automatic doors and manual doors you have on your site. That amount is paid twice a year.

WHAT PARTS ARE COVERED BY THE MAINTENANCE CONTRACT?

Consumable parts can be part of the maintenance contract depending on your business needs. On the other hand, parts that do need replacing can be part of a further quote. In the first in Awjah Automatic Doors – Entrance solution will supply you with a written report advising you on what work needs carried out in order to prolong the life of your system. This would include a quotation for any parts required for your manual or automatic doors.

Awjah for Automatic Doors

Industrial Roller Shutters

Awjah for automatic doors can maintain, repair, upgrade or replace your industrial shutters.

Moving vehicles can significantly damage industrial roller shutters if they aren't opened properly, if left a minor bump can turn into a major breakdown, costly repairs and lost of earning from downtime.

SECURITY GATES

If you've been a victim of vandalism Awjah for Automatic Doors can help.

Your gate provides security for your commercial business or domestic property, protecting valuable and stock and providing a deterrent to intruders. More often than not, it is also the fascia of your property or commercial business so not only must it function properly but it must also create the right impression.

FIRE RATED DOORS

Fire rated doors play a crucial role in the prevention of the spread of fire and smoke, protecting goods and employees as well as the internal fabric of your building. Their maintenance is crucial and they must comply with current health and safety legislation. As part of our maintenance service, we will fully inspect and test the battery back up of your fire rated door in the event of power failure during fire.

SECTIONAL OVERHEAD DOORS

Sectional overhead doors are highly prone to impact damage from forklift moving through them, Issues such as cables jamming or fraying can lead to a door breakdown.

We aim to radically reduce your business downtime with our rapid response sectional overhead door repair service.

For more pre-emptive rather than reactive approach , take advantage of our bespoke maintenance and repair services. Our fully qualified technicians will work hard to prolong the working life of your door, offering sound advice, helping you avoid costly repairs and keeping your business moving.

HIGH SPEED DOORS

With a steady flow of traffic in and out of your high speed door, impact damage can occur. A damaged, malfunctioning door means rapid heat and energy lost and fast deterioration of your working environment. Not only does this affect good, but also the health and safety of staff.

Once your call is placed, Awjah for Automatic Doors can be onsite within 6-5 hours from our location. Whatever emergency, from radar induction loop problem to control box breakdown we aim to complete a first time fix.

Our maintenance service means your high speed doors will be regularly checked and problem pre-empted and rectified to extend the working life of your door and avoid co

ROAD AND PARKING BARRIERS

We don't stop at your doors , we install, service and maintain road and parking barriers too. If your road and parking barriers are down from impact damage of malfunctioning due to lack of maintenance, Awjah for Automatic Doors can help.

Our maintenance service plans will make sure your traffic barriers are fully fit for purpose all year round so you never have to suffer unnecessary downtime or security breach. We can address a range of incidents from a seized gearbox or misaligned photocell to a faulty remote and inductiOon loop there and then, saving you time and money.
